SECURITY INFORMATION

REPORT

PLACE OBTAINED

DATE PREPARED 3 October 1951

ENCLOSURES (NO. & TYPE)

50X1-HUM

1. On 18 July 1951, radio truck [redacted] was again observed near Blanker Teich in Jueterbog. Truck [redacted] was also seen near it. (1) A second mast fitted at its upper section with four diverging masts pointing upward had newly been set up. Tapering white insulators about 15 cm long were mounted at the ends of these branches. No wires were seen.
2. [redacted] the radio installation at Blanker Teich. A smaller truck [redacted] was seen near it. The roof of this truck was fitted with an antenna pointing to the rear. A small shed was observed beside the truck. A sentry wearing red-bordered black epaulets was again observed at the Jueterbog-Damm airfield. (2) On 6 August, truck [redacted] hauled bread in Jueterbog. 50X1-HUM
3. On 21 August, the radio station near Blanker Teich was still in operation. Truck [redacted] was seen at the installation. A Soviet Army unit did intensive training at the field. Truck [redacted] loaded with bombs, was seen in Jueterbog. (3) The bombs were 120 to 150 cm long about 30 cm in diameter and had cross-shaped fins. They were packed in crates and were stored in 2 layers. 50X1-HUM
4. During the period from 24 to 27 August, Jueterbog-Damm airfield was occupied by artillery, tank and air force troops. The hangars of the field housed repair shops for trucks, artillery pieces, tanks and aircraft engines. The maximum occupation of the field was estimated at 500 officers and 1000 men. Field training and firing at wooden dummies was observed at the unused landing field. On 24 August, tank trucks [redacted] were loading fuel from railroad tank cars at the freight station. (4) 50X1-HUM

Comments

- (1) [redacted] The installation very probably is the outer landing beacon of the Altes Lager airfield. It is 4,300 meters distant from the beginning of the landing field.
- (2) Army units in addition to a Soviet Air Force workshop unit for motor vehicles, radio equipment and jet engines is located at Jueterbog-Damm airfield. No air unit is stationed there.
